Product Obsolescence Notice – Last Time Buy

October 18, 2010

Dear Valued Customer,

Giga-tronics appreciates and values its business relationship with you and we look forward to your continued interest in our products and services.

This letter is sent to advise you that Giga-tronics will discontinue manufacturing the 50000B series VXI Microwave Synthesizers. This product is being discontinued because the parts and components to build the product are no longer available. Even with a steady demand for the 50000B VXI Microwave Synthesizers, we have reached the limits of our ability to provide the product.

Giga-tronics strives to provide the highest levels of service and support to all our customers. Our intent is to provide service and support for the 50000B series VXI Microwave Synthesizers for 5 years, until January 31, 2016.

Please assess your product needs including any requirements for spare units and place a Last Time Buy order no later than January 31, 2011. Orders for these products may not be accepted after this date.

The conditions of this last time buy are as follows:

- All purchase orders are non-cancelable and non-refundable, and are subject to acceptance by Giga-tronics.
- Date for last order acceptance is January 31, 2011.
- Date for last shipments is June 30, 2011. All orders must be scheduled with ship dates no later than this date.

We apologize for an inconvenience this announcement may cause and remain dedicated to meeting your future test and measurement needs.

Sincerely,
Leonard Dickstein
Marketing Manager
